

Firmware Update

As of the firmware with date info 2022-09-13 it is possible to update the Firmware using the HID Setting software. Connect with the device you want to update and change to the second tab labelled "Firmware Update"

- 1: Click on [SELECT BIN FILE] will open the file selector. For your convenience, you can select the Firmware file in the explorer press and hold the [Shift] key, right-click and select "copy as path". After this you can simply paste the path into the file input line in the file selector.
- 2: Start the update with click on [DOWNLOAD BIN FILE]
- 3: Please wait until the process is finished.
- 4: Click on [REBOOT&RESTART]
- 5: Sometimes you get the error message "Flash failed". Please ignore this and test the device. If in doubt, do a power cycle.

Now you can change back to the tab "Function Setting" DisConnect = > Connect and see the new version information in the status bar.
