

1 Features and Structure

2 Recovery

Remove battery pack.

Press volume button + power button simultaneously while refitting the battery pack.

A very small menu appears:

```
Select Boot Mode:  
[VOLUME_UP to select. VOLUME_DOWN is OK.]  
  
[Recovery]          <<==  
[Fastboot]  
[Normal]
```

Select with the volume button (scrolls down) the desired entry.

Confirm with the right button.
