

MANUAL

Quick Start Guide

ID Mobile 3000

Version: v1.0

Date: 07.09.2020

1. Preface

IDTRONIC GmbH (IDTRONIC) reserves the right to make changes to its products or services or to discontinue any product or service at any time without notice. IDTRONIC provides customer assistance in various technical areas, but does not have full access to data concerning the use and applications of customer's products. Therefore, IDTRONIC assumes no liability and is not responsible for customer applications or product or software design or performance relating to systems or applications incorporating IDTRONIC products. In addition, IDTRONIC assumes no liability and is not responsible for infringement of patents and/or any other intellectual or industrial property rights of third parties, which may result from assistance provided by IDTRONIC. IDTRONIC products are not designed, intended, authorized or warranted to be suitable for life support applications or any other life critical applications that could involve potential risk of death, personal injury or severe property or environmental damage. With the edition of this document, all previous editions become void. Indications made in this manual may be changed without previous notice. Composition of the information in this manual has been done to the best of our knowledge. IDTRONIC does not guarantee the correctness and completeness of the details given in this manual and may not be held liable for damages ensuing from incorrect or incomplete information. Since, despite all our efforts, errors may not be completely avoided, we are always grateful for your useful tips. The installation instructions given in this manual are based on advantageous boundary conditions. IDTRONIC does not give any guarantee promise for perfect function in cross environments. The companies or products mentioned in this document might be brands or brand names of the different suppliers or their subsidiaries in any country. This document may be downloaded onto a computer, stored and duplicated as necessary to support the use of the related IDTRONIC products. Any other type of duplication, circulation or storage on data carriers in any manner not authorized by IDTRONIC represents a violation of the applicable copyright laws and shall be prosecuted.

Safety Instructions / Warning - Read before start-up!

- The device may only be used for the intended purpose designed by the manufacturer. The operation manual should be conveniently kept available at all times for each user.
- Unauthorized changes and the use of spare parts and additional devices that have not been sold or recommended by the manufacturer may cause fire, electric shocks or injuries. Such unauthorized measures shall exclude any liability by the manufacturer.
- The liability-prescriptions of the manufacturer in the issue valid at the time of purchase are valid for the device. The manufacturer shall not be held legally responsible for inaccuracies, errors, or omissions in the manual or automatically set parameters for a device or for an incorrect application of a device.
- Repairs may be executed by the manufacturer only.
- Only qualified personnel should carry out installation, operation, and maintenance procedures.
- Use of the device and its installation must be in accordance with national legal requirements and local electrical codes.
- When working on devices the valid safety regulations must be observed.

2. Accessory List

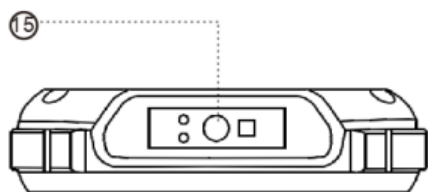

Item	Quantity	Unit
Type-c cable	1	pc
Power Adapter	1	pc
Battery	1	pc

3. Illustration of equipment

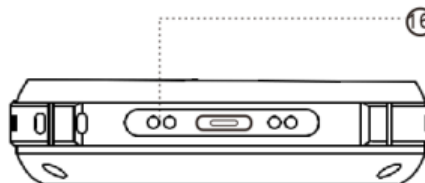

- ① Back ② Home ③ Menu ④ Customized Button ⑤ Volume
 ⑥ Customized Button ⑦ Power ⑧ Front camera ⑨ Red charging indicator
 ⑩ Blue charging indicator ⑪ Flash light ⑫ Back camera ⑬ Speaker

Head

⑮ Barcode scanner

Bottom

⑯ Type-C interface

4. Power on/of instructions

Power on: Press and hold the power button in the off state until the device sends out vibration feedback.

Shut down: Press and hold the power button until the shutdown prompt appears in the power-on state, and click Shut down to confirm.

Note: If you do not use the device for a long time, please shut down the device.

5. Basic operation

Button	Description
Power button	Turn on or turn off or sleeping mode
Menu button	Pop-up options menu
Home button	Back to main interface
Back button	Return to the previous interface
Volume button	Adjust the volume
Custom button	customize functions when developing software

6. Use and maintenance

1. It is not suitable to use the device or charge the device In an environment where the temperature is too high or too low.
2. Only use the standard charger or charging dock to charge the battery;
3. If you do not use the device temporarily, please store the battery and the device separately. Please do not put the battery into the device and store it together ,it is better to store them in a cool, dry and ventilated environment.
4. For batteries that are not used temporarily, discharge them once every 3 months, and recharge them to 60% or 70% of the power for storage.

7. Product parameter

Button	Description
Product size	166 x 79 x 18 (±2mm)
Screen	5.5 inch bright screen
System	Android 10.0
Resolution	720 x 1440
Battery capacity	4800mAh
USB type	Type-c data interface
Working hours	14 hours
Communication	4G, 3G, 2G free switching
Network	WiFi
Positioning	GPS

8. Optional functions

NFC

QR code

PSAM

Camera

9. Notes on battery usage

1. It is forbidden to disassemble the battery under any circumstances.
2. It is forbidden to immerse the battery in liquid to prevent moisture.
3. It is forbidden to charge, use or place the battery near heat sources, such as fire, heater, etc., or under high temperature (such as strong sunlight or very hot cars), otherwise it will cause overheating and fire or shorten the life. It is forbidden to directly solder the battery.
4. It is forbidden to heat or throw the battery into a fire, or put the battery in a microwave oven or high-pressure container.
5. If the battery leaks or smells (electrolyte), please discard the battery immediately. If the electrolyte leaks and touches the skin, eyes or other parts of the body, immediately rinse the electrolyte with clean water and seek medical attention.
6. It is forbidden to hit or pierce the battery with sharp parts, such as nails and other sharp objects.
7. It is forbidden to transport or store the battery and metal objects, such as necklaces, hairpins, etc.
8. It is forbidden to hit, step on, or throw the battery with a hammer.
9. The battery is a consumable product, and its capacity will gradually decrease as the use cycle increases. It is recommended that the battery be replaced in time when there is a problem.

10. Battery installation and device direct charging instructions

1. Battery installation:

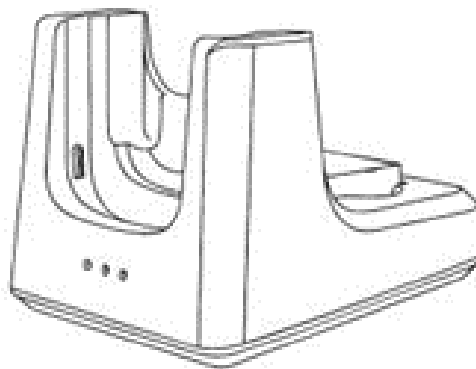

When installing the battery, please pay attention to the battery installation direction. Put the front of the battery into the battery slot of the device first, and then push the bottom of the battery to enter the device. Do not use brute force to squeeze the battery and the device. The installed battery compartment is flat and firm.

2. Instructions for using direct charging:

Insert the Type-c data cable into the data port at the bottom of the machine to charge the device. The charging indicator on the device is red when it is charging, and the red light is off when it is fully charged.

11. Instructions for the charging base

The charger can charge the device and the spare battery at the same time. When charging the device, directly insert the device into the host card slot of the charging base and hear a slight click sound. When charging the battery separately, lay the battery flat and insert it into the battery card slot of the charging base. Then use the power adapter to power the charging station.

12. Optional function instructions

QR code

Refer to the built-in demo of the device. If the customer needs secondary development, please contact the technical support engineer; the QR code can scan the barcode of the mainstream symbology, but please pay attention to the clarity of the barcode.

13. Common failure analysis

If any problems happens during the use of the equipment, please refer to the following instructions to solve them. If the problem persists, please contact the dealer or manufacturer.

1. Can't charge

- a. the equipment charger is not working well
- b. The ambient temperature is not suitable
- c. Poor contact

2. The device cannot be turned on

- a. Please confirm whether the battery has electricity and whether the battery contacts are in good contact.

3. Unable to scan barcode

- a. The scanning head cannot emit light and the hardware is damaged;
- b. Confirm whether the barcode is a national standard code;
- c. Confirm whether the barcode is damaged;

4. high frequency cannot read and write cards

- a. Please first confirm whether the card type is correct, and then confirm whether the card reading position is correct. Otherwise, please contact technical support to confirm whether the hardware is damaged.

5. UHF cannot read and write cards

- a. Please confirm whether the card type is correct, and then confirm whether
- b. the card reading position is correct. Otherwise, please contact technical support to confirm whether the hardware is damaged.

6. some functions cannot be selected

- a. If this service is not activated or the local network provider does not support the service, please contact the designated repairer, dealer or network operator.
